What's New

Driving Safely Through the kcICON Corridor

You may have seen Barrel Bob, the kcICON Project mascot, with his message board reminding motorists to drive safely through the work zone. Project members also ask that motorists obey the posted speed limits, and be aware of changing winter weather conditions.

The project is 63 percent complete to date. Additional information is available on the project's Web site:

www.kcicon.com or on [Facebook](#) "kcICON Project."

Arrive Alive! Buckle Up and Drive Safely through work zones—especially during winter's changing weather!

"Our crews are not as active during the winter months, and motorists sometimes need to be reminded that they are still traveling through a construction site," said kcICON Project Director Brian Kidwell. "We care about the public's safety, as well as the safety of our crews, and encourage motorists to abide by the posted speed limits."

Barrel Bob says: Reduce Speed Ahead!
