

# The Paseo On-Ramp to Northbound I-29/35 Closed Until Fall 2010 for Construction

## W H A T

Long-term closure of The Paseo on-ramp to northbound I-29/35.

## W H E N

The ramp closed Monday, Aug. 11, 2008, and is scheduled to reopen fall 2010.

## W H Y

The northbound lanes of I-29/35 are being restriped to move traffic to the inside (west) so crews can begin bridge removal and widening work along the outside of the I-29/35 railroad bridge viaduct between The Paseo and Front Street. Shifting highway through traffic toward the center median will eliminate the acceleration/merge lane for vehicles entering the northbound lanes from The Paseo, necessitating this on-ramp closure. Reconstruction of this ramp is scheduled to begin in 2009.

## ALTERNATE ROUTE

Motorists should use the Heart of America Bridge (Route 9).
