Bedford Avenue On-Ramp to Southbound Interstate 29/35 to Close

NORTH KANSAS CITY, Mo. – The on-ramp from Bedford Avenue to southbound Interstate 29/35 will close Tuesday, Feb. 16, 2010 for approximately six months. Underground utility work will begin the first few weeks of the closure, with ramp reconstruction to follow. 16th Avenue will be the marked detour route to southbound I-29/35 access during the closure.

The new on-ramp will be part of a collector-distributor system, featuring longer ramps that minimize weaving in interstate traffic lanes and allow motorists to cross easily from Bedford Avenue to Levee Road without entering the flow of interstate traffic. This new configuration will also accommodate more vehicles than the previous ramp, and make it easier for motorists to enter the highway at a greater speed.

All construction activities are weather dependent and subject to change. Updated lane closure information for the kcICON Project can be found on the project's Web site at www.kcicon.com or by calling the information hotline at 816-841-8888.
